Abstract. To obtain a standardized layout when printing the abstract volume, we ask all authors to use the \LaTeX word processor and to take notice of the following instructions. The text should be written in English or German and must not exceed one page. Please, use the file `gfk12004.cls`. This file takes care of all the formatting. Please, write title, author(s), affiliation(s), text of the abstract, references, and 3–5 keywords according to this sample \LaTeX file. A camera ready abstract and the corresponding \LaTeX file should be sent via e-mail to the local organizer:

Prof. Dr. Claus Weihs

Gfk12004@statistik.uni-dortmund.de

The **deadline** for the **abstracts** of the conference submissions and for the **finished contest papers** is **November 15, 2003**. Accepted abstracts will be included in a summary volume that will be distributed to conference participants.
